

Accounting Manager - Job Description

Position: Accounting Manager

Location: Belgium

Languages: Proficiency in French and English is required; Dutch is optional but highly valued.

Job Summary

You will oversee and coordinate the accounting processes for a diverse group of companies engaged in industries such as emission reduction systems, low and zero-carbon power production and storage technologies, innovative software solutions, and innovative shipbuilding. These companies are at the forefront of innovating sustainability across various sectors, from advanced technology solutions for energy and emissions management to groundbreaking maritime engineering and industrial services. You will be responsible for ensuring accurate financial reporting, compliance with local and international accounting standards, and the efficient operation of the accounting function across all entities within the group.

Key Responsibilities

- You will coordinate and manage the day-to-day accounting operations for multiple companies within the group, ensuring accuracy, compliance, and efficiency in all financial processes.
- You will develop and implement standardized accounting procedures across the group to enhance financial reporting, budgeting, and forecasting.
- You will oversee the preparation of financial statements, ensuring compliance with local regulations and international financial reporting standards.
- You will lead the consolidation of financial results for the entire group, providing clear and actionable financial insights to senior management.
- You will collaborate with the finance and operations teams to ensure seamless integration of financial data from various business units.
- You will manage and mentor a team of accountants, providing guidance and support to ensure high performance and professional development.
- You will interact with payroll providers to ensure accurate and timely payroll processing.
- You will coordinate with external auditors and tax advisors to ensure accurate and timely completion of audits and tax filings.
- You will stay updated on changes in financial regulations and accounting standards, ensuring the group's compliance and advising management on potential impacts.
- You will optimize and streamline the use of the group's ERP systems to improve the accuracy and efficiency of financial reporting and data management.

ECO-SOLUTIONS

- You have proven experience as an Accounting Manager or in a similar role within a multi-entity organization, preferably in industries such as manufacturing, engineering, or industrial services.
- You have strong knowledge of Belgian accounting standards and international financial reporting standards (IFRS).
- You have demonstrated experience in managing and consolidating financial results for a group of companies.
- You are proficient in French and English; knowledge of Dutch is optional but highly valued.
- You have excellent leadership and organizational skills with the ability to manage multiple priorities and deadlines.
- You have strong communication skills, with the ability to effectively interact with stakeholders at all levels.
- You have advanced proficiency in accounting software and ERP systems.
- You hold a Bachelor's degree in Accounting, Finance, or a related field; a Master's degree or professional certification (e.g., CPA, ACCA) is preferred.
